

# BIOMODEL 4REGIONS

## I am a stakeholder in the bioeconomy sector, what's in it for me to get involved?

- Meeting local stakeholders working on bioeconomy in your region → making new contacts/networks.
- Helping you to improve your existing governance model(s) and business model(s) in the bioeconomy sector.
- Being involved in the project activities from the very beginning → having direct access to the project's most recent results (governance model, innovative business models adjusted to the regional circumstances/needs, etc.).
- Providing your valuable feedback to better shape the products and results offered by the project → contributing to high-quality research results in the bioeconomy sector.

## 14 Partners

The results will be demonstrated within the project to support 6 pilot regions chosen in clusters' network.
